CAREER OBJECTIVE

To leverage proven full-stack development expertise and entrepreneurial drive to contribute to innovative projects, driving impactful solutions and fostering continuous growth within a dynamic team.

EXPERIENCE

Full Stack Developer

GEEKSBLOCK | 2025 - Present
- Engineered and maintained robust, end-to-end applications using modern frameworks (e.g., React, Node.js, Python).
- Created easy configuration of PA System for users.

Founder & CEO

Innovensky Softwares
- **Developed** and **maintained** company's vision, mission statement and strategic plan.
- **Supervised** a team of three Customer Service agents and decreased handling time by 20%.

PROJECTS

AddaBD   Live
- A social media platform inspired by **Facebook**, allowing users to connect.
- It features an **AI-powered** image generator and a **smart assistant**.

MAP CRM   Live
- Developed a dynamic **MAP CRM** system using **React, TypeScript**, and **Node js**.
- Calculate the cost, manage employee task, use map to select zone for devices installations (Camera, Speaker, Telephone).

E-Shop App   Install
- Designed a modern e-shop mobile app using **React Native**, featuring promotional banners, flash sales, category browsing and a clean, user friendly layout.
